CONCRETE, SCREED & GROUT PUMPS

Putzmeister Mixocrete M760DH Screed Conveyor

The most powerful Mixokret, this model is suitable for mixing and conveying floor screed up to 180mtrs distance.

Using the screed pump is easier and quicker compared to hand mixing or free fall mixers. Screed pumps can efficiently mix large volumes of screed in a short time and is ideal for screeding large areas.

Screed pumps are suitable for complex constructions and buildings with difficult access where materials can't be carried up manually.
