

Technical Data Sheet

Putzmeister Beliso SP11 BMB

The SP11 range of worm pumps offers an impressive, sophisticated design and simple operation. The machines are suitable for site mixed or bagged interior and exterior rendering, coloured mortar, limestone mortar, light wall mortar, ornamental plaster, liquid screed and for filling and grouting works.

Equipment Features;

- Fully hydraulic pump and mixer drive
- Swivel Mixer
- Water metering
- Motor rpm adjustment
- Optimum sound damping due to cased motor
- Low noise emissions
- Infinitely adjustable output
- Analog or PLC control system
- High- pressure cleaner
- Mixing time adjustment

Technical Data

SP11 BMB

Pump Type	Worm Pump 2L6
Version	Swivel Mixer
Delivery pressure	25 bar
Output	5-40l/min
Compressor	2-cylinder compressor, 7 bar, 400l/min
Engine	3-cylinder Kubota Engine, 15.7Kw
Engine rotations	2400 rpm
Weight	750kg approx.
Length	3510 mm
Width	1420 mm
Height	1125 mm
Filling height	1125 mm
Maximum grain size	6mm
Discharge connection	M50
