

Technical Data Sheet

Flowman D3

The FLOWMAN's numerous built in features make it a high-performance worm pump, driven by a 3-cylinder diesel engine. Its high conveying capacity even allows for very large increases in the delivery altitude: it can handle heights of up to about 30 floors. The combination of safety and the practical use of the protective grating make the FLOWMAN a well-designed worm pump for pumping your materials

Technical Data Flowman D34

Drive	3-cylinder Deutz diesel Engine
Delivery pressure	35 bar
Theoretical delivery rate*	Flows to 18m ³ /h
Delivery Distance**	Up to about 180m
Fuel Tank Capacity	45ltr
Weight	1050kg approx.
Length x Width x Height	4500mm
Width	1400mm
Height	1350mm
Filling height	1000 mm

* The delivery rate is theoretical and depends on the pump pressure.

Depending on the pump used, the delivery rate may be higher or lower.

** The data is based on experience and is dependent on the materials used.
