

Technical Data Sheet

Putzmeister Mixokret M760DH Screed Conveyor

Using the screed pump is easier and quicker compared to hand mixing or free fall mixers. Screed pumps can efficiently mix large volumes of screed in a short time and is ideal for screeding large areas.

Screed pumps are suitable for complex constructions and buildings with difficult access where materials can't be carried up manually.

Technical Data M760 DH

Model	M 760DH
Output	4m ³ /h
Delivery Pressure	7 bar
Compressor	5.0 m ³ / min,
Engine	4-cylinder Deutz diesel engine, model D 2011 L04, 46.5 kW at 2,600 rpm, oil-cooled
Engine Power	46,5kW
Engine rotations	2600 UpM
Weight (tank full)	1600kg
Length	4820mm
Width	1500mm
Height	1600mm
Filling Height	820mm
