

Technical Data Sheet

Putzmeister M760 DH3B

The **M760 DH3B Screed Pump** is the newest Eco Friendly pump from Putzmeister with a Kubota diesel engine which is Emissions' Level Stage 3B. The latest addition to UKSGP's hire fleet the new state of the art colour LED display control panel, low noise level and diesel consumption this is perfect for the large construction site and conveys screed up to 200m* horizontal and 150m** vertically

Technical Data

M760 DH3B

Machine model	M760 DH
Output	4m ³ /h
Compressor	5.0 m ³ /min, switch off pressure 8 bar
Engine	4 cylinder Deutz diesel engine, 48.5kW at 2,700 rpm, (emission Stage 3B)
Filling Height	820mm
Weight	1720Kg (Fully Fuelled)
Length	4780mm
Width	1480mm
Delivery Width	1480mm
Delivery Height	1520mm
Fuel	White Diesel
Fuel tank Volume	70l

* The delivery rate is theoretical and depends on the pump pressure

** The data is based on experience and depends on the material properties.
