BRINKMANN

How much fuel would you save in a year? It's worth doing the maths!

Your Brinkmann dealer will be pleased to calculate your cost savings with an electric machine together with you.

	Diesel *	Electricity
Scope conditions		
Work days with screed machine	200 days	200 days
Operating hours per day	5 hours	5 hours
Fixed costs		
Construction site levy	Identical: e.g. 1 % of the contract value for participation in costs for construction electricity, construction water and sanitary facilities	
Variable costs		
Fuel consumption	6 l/h * 5 hours per day	0 €
Daily consumption	30 l/d 1,90 €/l diesel	0 €
Fuel cost per workday	57 € 200 workdays	0 €
Fuel cost per year	~ 11,400 €	~ 0 €
Maintenance cost	Additional maintenance costs for the diesel engine (fuel filter, etc.)	no additional costs for the maintenance of the electric motors
Operating cost per year	~ 11,400 €	~ 0 €

* Table only serves as a reference with regard to the costs incurred between a diesel machine and an electric machine in a direct comparison. Data may vary depending on user and work method. Wear parts have not been taken into account.
